Hybrid Course Format Details

The DMIN curriculum is offered in a hybrid format. Students can expect to be in class one week (Monday through Friday) and then complete additional course work through asynchronous online venues and synchronous video conferencing. Video sessions will be scheduled on Thursday evenings, 7-9:15 pm Central and each professor will post those dates on course book lists. (Book lists are published during the first two weeks of March for the June session, the first two weeks of July for the October session, and the first two weeks of October for the January session). (See page 38 of the 2022-23 DMIN Handbook for more details.)

Immersion Courses

DPLC 731 International/National Immersion Experience: St. Croix - This travel course will focus on two themes: colonial identity and theological discourse on climate change. Island communities are on the front lines of climate change. As the amount of powerful storms increase and sea levels rise, island ecologies are changing rapidly and presenting a variety of struggles. Political power is often needed to combat climate change, so what does that mean for colonized islands without that kind of political power? Both conversations are best understood in a place like St. Croix, USVI—a place that deals with both realities. St. Croix is also a place with a rich history and culture that goes far beyond these two topics. We will explore these topics and more through conversations with island historians, politicians, marine biologists and local leaders. We will also experience the ecology of the island on land and in the water. As we learn about this island throughout various discussions and activities, the big question then becomes, what is the response of the practical and public theologian? This course is offered to both Master's and DMin students. Additional trip fees apply. Required Zoom meeting dates: April 13 and May 4 (7:00 – 8:30 pm CST); Optional Q&A Session: June 1 (7:00 – 8:00 pm). **A waiting list is in effect for this course; contact Sharon@ptstulsa.edu for more information.**

Project Courses

This June, the 905 Project Development Seminar II Course will be offered Saturday, June 17th from 9:00 am – Noon via Zoom. (NOTE: additional contact hours for this course will be fulfilled through required online modules). If you wish to be enrolled in this class, please notify the Registrar and Program Director by [May 1](#).

Chapel Services

Worship will be held at 11:00 am, Monday through Friday, June 12-16, 2023 in Meinders Chapel. Please note that attendance is expected for chapel services, as they are included in your total program contact hours.

Enrollment

In early March, you will receive an email from the Registrar with a “Program Trajectory Form” attached, created to assist you in tracking your progress through the DMIN curriculum. When you receive this information, please double-check the data on this sheet to verify it is correct. If you see any mistakes, please notify the Registrar so that any necessary adjustment to your record can be made. You will notice we have already added to your form the class we are recommending for you in June (it will be highlighted in yellow). We prefer students complete the 3 Foundation courses before taking a Specialization course. If you would like to request a different course, please contact the Program Director.

*Please note: every DMIN student needs to take at least one immersion course in order to fulfill the requirements of their program.

[Book Lists](#)

Course book lists are now housed in the "Student Services" site on Canvas. (That is also the location where you will find many other helpful documents and important details about available student resources!) Book lists are posted in early October for January sessions, in early July for October sessions, and in early March for June sessions. If you have any questions about your book list, please contact the Academic Affairs Office.

Textbook costs: Students may ordinarily expect that the total cost of their required books for a class will not exceed 20% of the tuition rate per credit hour multiplied by the number of credit hours the class is worth. 'Total cost' shall here mean the sum of the manufacturer suggested retail prices (MSRPs) for the required books. Books listed as 'recommended' are not counted toward the 20% calculation.

Occasionally learning outcomes and differences in book prices between disciplines will require a course to exceed this 20% figure in its required book costs. For example, when an out-of-print title is assigned for a course, the MSRP may be quite high, while in reality there are readily available used copies available at an affordable price. When the learning outcomes of a course require the assigned books' MSRP total to exceed this 20% figure, the instructor will provide some recommendations on the course booklist for how students might seek out lower-cost options.

NOTE: The 20% figure will be revisited annually when the American Library Association makes available the data on the past year's average price change for academic titles in philosophy and religion. That data is received by the Dean of the Library and reported to the Library Committee and from there to the Faculty Senate.
